

Wherever This Will Lead

- 1) On the day we met I knew right away
 From the way you said "why don't you stay?"
 Burning up inside and I just can't wait
 For the moment that I get to say
 Chorus) I'm in love with you; together we will be
 I will follow you wherever this will lead
 Just you and me
- 2) When we're all alone, you're hard to resist
 Like a drug, nice and slow, you gives me a kiss
 All I know is that it feels so right
 And this is what I'm gonna say one night
 Chorus) I'm in love with you; you know it's meant to be
 I will follow you wherever this will lead
 Just you and me
- Bridge) I could see beyond tomorrow
 Since the moment that we met
 With you and me there's no stopping us
 From what lies ahead
- 3) Not a day goes by I don't think of you
 And you can't deny you feel it too
 Now I found the one, my everything
 I can't wait to have you wear my ring
